

K-LOVE, heard on FM 96.9, 104.3 and 102.3 serves the Christian community with positive and encouraging music suitable for all ages. No profanity, no sexual innuendoes is heard at all. Type of music heard on K-LOVE is different than other local stations. I have finally found a station that plays contemporary Christian Music I like.

The station provides 24 hour counseling for people to call in with any need that they may have. They offer encouraging words and scripture by email. NO other station offers this.

If the station is displaced kids and adults will only hear usual secular stations. I believe behavior is affected by what music is heard. I see my own behavior different towards my community when I listen to K-LOVE.

Please keep this type of music available to keep uplifting people by giving positive messages. Keep a radio station where people can call for help and prayer support.

Thank you.
